

Supplier Self Assessment

WEEE Directive

Overview > According to the German Electrical and Electronic Equipment Act (ElektroG), any manufacturer or retailer who wants to place electrical and electronic equipment on the market in Germany for the first time is obliged to register with stiftung ear beforehand. If registration is successful, the registered party is assigned a unique WEEE registration number. WEEE stands for *Waste from Electrical and Electronic Equipment*

Supplier target > Manufacturers or retailers who want to place electrical and electronic equipment on the market in Germany

Red flag questions > None. Unscored.

Additional notes > The WEEE number of businesses where this is relevant will appear on POI level under the Data tab on their target profile
